An electrical storm of severe intensity passed over Barre late yesterday afternoon, accompanied by a lightning fall. Among the places where lightning struck was at the farm of Edgar Trow on Truway hill. The bolt made a hole in the roof and chased itself down a wire to the cellar where Mr. Trow was doing some work. He got quite a serious shock. The building was not set on fire.
Evangelist John Weightman, who has been spending a few weeks with the people of the Holiness mission, having been called to Housen Point, N. Y., to conduct revival meetings with the Rev. B. S. Taylor, there will be no more Sunday services in the mission for the present. The people of the mission will hold cottage meetings during the week, to which all are cordially invited.
Robert Wright had a narrow escape from serious injury Saturday at Berlin while in swimming. He dived into the water and struck his right side against a sharp stone, cutting a gash several inches long. The Comique, the new moving picture theatre, opened Saturday night, and although they had some trouble at the start with the lights going out, the audience remained very orderly. During this time Davis Rouch entertained the crowd by singing several songs and telling some stories, proving himself to be an excellent entertainer and singer. The new place promises to be one of the prettier places in Vermont when completed. When finally they got the lights to work the pictures were excellent. Another fine feature of the new place is that the seats are so arranged that a person can see from any place with perfect ease. If the Rouch Brothers keep up to the standard they have started this no doubt will eventually be the popular picture house of Barre.

The goldfish is a great coward, and a tiny fish with the courage to attack it can frighten it almost to death.
The bird of paradise is found only on the island of New Guinea and the neighboring coasts of Australia.
A neat little brush is attached to the tail of the glowworm, and it is used to keep clean that part of the insect from which the light gleams so as to make it more distinctly visible.

State Lines.

Maine produces 800,000,000 white birch spools each and every year.
It is only within a year that the state of Tennessee has admitted women to the practice of law.
Vermont gets the credit of being the Granite State, but Pennsylvania leads in the production of stone, with nearly 14 per cent of the total placed to her credit.
Michigan holds second place in the production of best sugar in the United States. Sixteen factories were operated in the state in 1907, producing 188,000,000 pounds of sugar. Colorado led the country with 422,732,580 pounds.

TALK OF THE TOWN.

The Illegible Three Words.
Representative Cushman of Washington came to Speaker Cannon with a letter written by the speaker himself.
"Mr. Speaker," he said, "I got this letter from you yesterday, and I could not read it. After I studied it quite a spell I showed it to twenty or thirty of the fellows in the house, and between us we have spelled out all the words except those last three. We can't make them out. I want to know if you won't translate those last three words?"
Uncle Joe took the letter and studied it.
"Those last three words that stuck you and everybody else," he said, "are 'personal and confidential.'"—Chicago Evening Post.
